Harrison County's Lost Buildings

Bill Penn

Asbury Broadwell, built this residence ca. 1830 on Clifton Avenue facing town. Harrison Female Academy here 1878-1898, then Elks Lodge 1905-1918. It was demolished 1920. The slave quarters remain. The 1877 Beers map of Harrison shows the location. Postcard, ca. 1910, courtesy www.harrisoncountyky.us

The Barlow Knife - Once A Boy's Favorite

Bill Penn

I purchased my first Barlow knife, a Boker Tree Brand as I recall, about the age of thirteen (1956) from VanHook Hardware in Cynthiana, and have carried one ever since. The same pocket knife display case is still in that store. My favorite Barlow is an antique Russell Barlow given to me by my late uncle Bill Pickett that belonged to his brother, Porter, who was killed by lightning in 1925 at Porter, Scott County, Ky.

Although not as popular today, the Barlow jackknife, with

its distinctive long bolster, has been a favorite pocket knife since it was first created. George Washington, Tom Sawyer, and Huckleberry Finn carried a Barlow knife, the latter two in Mark Twain's novels, a reflection of its popularity in the south and Midwest.

President's Corner

Bob Owen

I want to thank all of you who turned out for last month's meeting held at the Handy House. I hope that you enjoyed the tour and will carry good words about preserving the house to others of the committee. I especially want to thank Karen and Billy Fowler for acting as hosts and tour guides. Great job!!!

At the August meeting, the members voted to approve the changes to Articles of Incorporation and the by-laws to keep us in good standing with Frankfort and Uncle Sam. Should anyone want copies of them, please contact me.

This past month I was involved with the production of the Wizard of Oz at the Rohs Opera House Theater. This was in conjunction with my membership on the community Arts Council. The CAFÉ-Arts Council is working to promote and provide artistic opportunities to the community. This group is headed by Bruce Florence and has a membership of many interested community members. If you would like to promote artistic endeavors such as Children's Theater, music shows, dance, art shows, creative writing, etc., attend our meeting at 6:15 PM on October 4th at the Licking Valley Community College. Another goal is to restore the Rohs Opera House Theater as a community landmark and entertainment center.

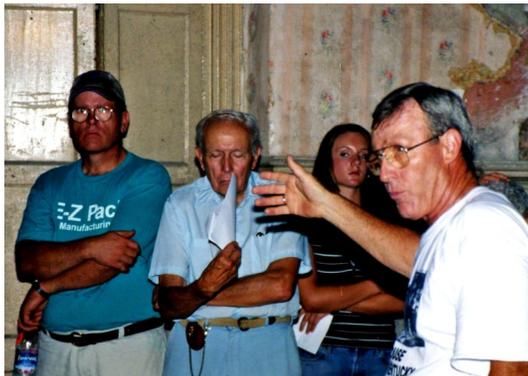

Don't forget that the next meeting will be on September 21st with Marsha Hicks, representing the Colonial Dames XVII Century. Also plan to attend the November meeting when Philip Naff will lead a Harrison Co. Genealogy workshop.

Handy House Tour—August 17, 2006

Historical Society vice president Billy Fowler led members and guests on a tour of the Handy House (see photo) which is in danger of being demolished. Mr. Fowler discussed the builder, Col. Brown, and later occupants, as detailed in the January 2006 Harrison Heritage News special issue on the farm. This tour emphasized both the potential for adapting the building for community use and the apparent soundness of the construction. The Handy House Committee is advocating that local government set aside the Handy House and associated barns, and to preserve, restore, and interpret their story.

Upcoming Harrison County Historical Society Programs

September 21 - Marsha Hicks of The Colonial Dames XVII Century.

October 19 - A representative from Friends of Griffith Woods will discuss the planned activities of this support group, and present an update on the preservation plans for Griffith Tavern.

November 16—Workshop on Harrison County Genealogy—Phillip Naff with others to be announced.

State of the Museum Report

Although I usually use this column to make museum connections with the featured article of HHN and/or to share the museum collection (which continues to grow), I write this month about the museum and its ongoing business and activities - perhaps a "state of the museum" report.

At our last meeting, which was an enjoyable dinner gathering, we held our annual election. Our nine directors are Mary Grable, Kenny Simpson, Dorothy Slade, Harold Slade, Donald Hill, Martha Barnes, Neville Haley, Bob Grable, and Larry Moss with Martha, Kenny, Bob, and Mary serving as officers.

Although we receive funding from the city, county, some civic organizations, and other donors as well as book sales (Do you need a gift for a special someone? See p. 5), we rarely have much balance as we pay for gas, electricity, insurance, supplies, and rent (however, our rent is most reasonable thanks to Mr. Poindexter).

Our plans to move into the theater building on Walnut Street are ongoing (It is exciting to consider that both the Rohs Theaters are alive-congratulations to those working with the community theater on Pike Street) - and some of our volunteers are working "above and beyond" to accomplish this goal. Although our number of volunteers is small, the dedication is solid. Our volunteers continue to be there when needed. Recently, we have hosted several groups for special tours. Do you have some time when perhaps you could help out at the museum? Perhaps you and a friend on some Friday or Saturday morning or afternoon? Or do you know of someone who might be interested in being a museum volunteer?

This past Saturday was the Taste of Harrison County - it truly was a wonderful event with fantastic weather and huge crowds. Thanks go to the Cynthiana Merchants Association who organized the festival ten years ago. This year, those faithful folks turned the "Taste" over to the Lions Club. With the races, crafts, entertainment, campaigning, games, food, there indeed was something for everyone. Our volunteers, of course, welcomed many visitors to the museum as well as manning a booth on the court house lawn (we appreciated our location right by the gun in memoriam to our Harrison Countians lost at Pearl Harbor). It was rewarding to those of us at the court house to sell a number of Chronicles and Cromwell's Comments, talk with folks interested in history, and direct them down the alley to visit the museum.

We encourage you readers to support and join us. Financial assistance is always needed. Volunteers are our most urgent need. Please contact us to discover how you might help us preserve and share our Cynthiana-Harrison County history.

(BARLOW KNIVES Continued from page 1)

The History of the John Russell Cutlery Company (1976), a source quoted in this article, and www.barlowgenealogy.com, both say that the Barlow knife was invented in 1667 by Obadiah Barlow, a cutler in England who started the Stannington Barlow Company. By 1789 this company had closed and John Barlow, grandson of the founder, “introduced the knife to America and then (apparently) passed the patents on to heirs or successors from whom...cutlers purchased rights of manufacture, the use of the Barlow name, and the Barlow trademark.” An example is a Barlow knife carried by George Washington documented by the City of Sheffield Museum as being made by Luke Furnace in Stannington, England, between 1774 and 1787, for export to America.*

The John Russell Cutlery Company was the vision of John Russell, who began in the cutlery business in 1833 at Greenfield, Massachusetts. In 1836, with additional capital from a new partner, the cutler expanded as the “American Cutlery manufactured by J. Russell & Co. Green River Works.” Here the famous Green River Knife was manufactured, a hunting knife with a 8 3/4” blade and plain wooden handle, carried by pioneers in the western migration. They even turned up in the hands of Indians, who often used it as a weapon.

Although the company had “earlier sporadic production of pocket knives,” in 1875 they decided to manufacture pocket jackknives [including Barlows], and by 1877 “some 50,000 dozen jackknives had been sold and they became the fastest selling item in the Company’s stock.”

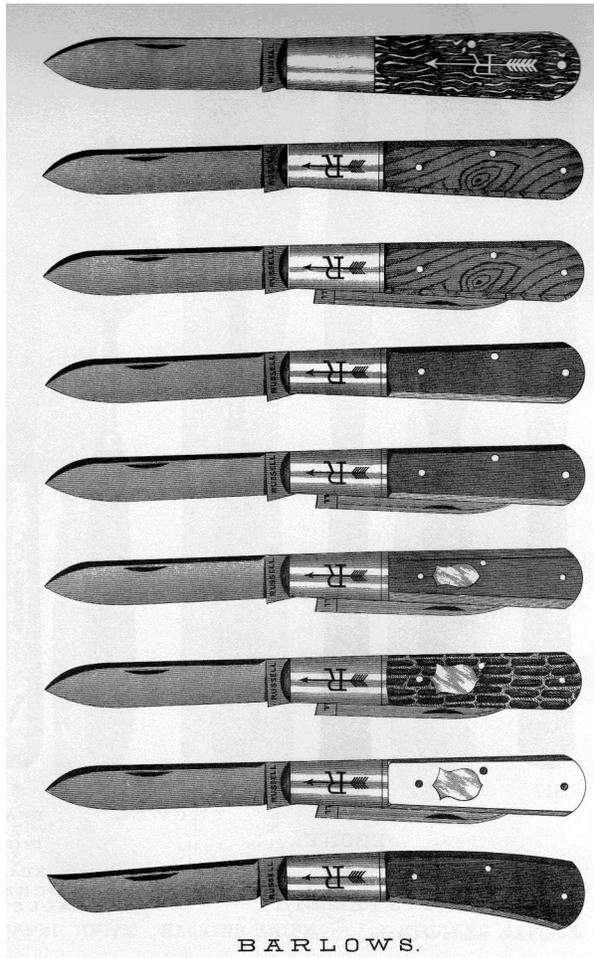

Among the cutleries in the US that sold a version of the Barlow knife, the Russell Barlow became the most popular brand. “Unlike its competitors, the Russell Company adhered closely to the original pattern of the Barlow, and developed its own trademark, an arrow-pierced ‘R’ on the” bolster. (Some mistakenly think a person named “Russell Barlow” made the knives of the Russell Company).

The cutlery trade defined a Barlow as a 3-3/4” jackknife, measured closed, with a 2-1/2” blade. Originally all were single-bladed but later two-bladed and a larger-sized single-blade “granddaddy” version was produced.

The company merged with the Harrington Cutlery Company in 1933, becoming the Russell-Harrington Cutlery Company. In 1936, after the old Russell Cutlery facilities were flooded, the new company moved to another town, thus ending a legacy started in 1833.

Some still claim the Lexington inventor Thomas H. Barlow (1791-1865), born in Nicholas County, first made the Barlow knife. Perhaps he made pocket knives, but as noted, researchers have traced the design to an earlier Barlow, perhaps a relative.

Today, several cutlery companies produce the Barlow pattern, but the Russell Barlows like Porter Pickett carried, made generally between 1875 and 1936, are among the knives most prized by collectors. *<http://www.nextek.net/gcarlson/webdoc2.htm>
